

SOUTHLAND SCOUTS TO CAMPAIGN FOR VOTERS

Joining the five million Cub Scouts, Boy Scouts and Explorers in the United States who will participate in the third national Get-Out-The-Vote campaign, 50,000 Scouts and leaders of the Los Angeles Area Council are preparing for the starring event of the Golden Jubilee Year.

As in 1952 and 1956, this great nonpartisan effort to get out a record vote in the national election is under the joint sponsorship of the Boy Scouts of America and the Freedoms Foundation, Inc., of Valley Forge, Pa.

On Oct. 29, 10 days before the election, a mammoth distribution of Liberty Bell placards urging citizens to vote will be distributed to 40,000,000 homes throughout the nation. The Scouts, trained in an orderly and systematic distribution method, will hang the placards on the nation's front doors. Residents will be asked to display the reminder in their front windows until Election Day, signifying their intention to vote.

The Freedoms Foundation at Valley Forge and the Boy Scouts of America efforts contributed much in the increased voting total in 1952 and 1956.

The Get-Out-The-Vote campaign is strictly nonpartisan in its concept and execution.

As in all national Good Turns and other service projects undertaken by the Boy Scouts of America, the development of character and good citizenship is the prime motive behind the actual job.

League of Women Voters to Back State Propositions 1, 5, and 12

Mrs. Allen Curtis of Torrance, Voters Service Chairman for the League of Women Voters of the Palos Verdes Peninsula, has announced that the California State League of Women Voters is supporting three ballot measures, 1, 5, and 12, on the 1960 ballot. Support from the League on any issue comes only after a thorough study and the reaching of consensus by the membership.

The League of Women Voters of California supports Proposition 1, authorizing the issuance of \$1.75 billion in general obligation bonds to build a state water system. There is an immediate need for the control, development and redistribution of California's water resources.

THE STATE Water Bond Act presents the electorate with a sound and equitable method for achieving this goal. The use of general obligation bonds is standard approved procedure for this kind of large, capital expenditure.

This state water program is the result of a long period of intensive study by the highly competent Department of Water Resources. California needs a state water program to meet her present water problems and sustain her future growth.

THE LEAGUE of Women Voters recommends a YES vote on Proposition 1.

The League of Women Voters of California supports Proposition 5 on the 1960 ballot which will increase state legislators' salaries from \$500 to \$750 per month. The League has long believed that legislative compensation should be sufficient to attract qualified persons to seek and hold public office. As California's population has rapidly increased, the work-load of the California legislator has become heavier each year. It is now estimated that the average legislator spends from one-half to three-fourths of his time on legislative matters. Legislators have not had a salary increase since 1954 although their duties and responsibilities have increased

steadily in the past six years.

THE LEAGUE recommends a YES vote on Proposition 5. The League also supports Proposition 12 on the 1960 ballot. This proposition will eliminate various obsolete sections of the California Constitution. It will not effect any substantive changes in the Constitution. The League believes that one of the difficulties of our present Constitution is its excessive length. The elimination of a number of sections of "deadwood" would reduce the verbiage in the document, thus making it simpler in form. The League recommends a YES vote on Proposition 12.

McKinnon Takes National Guard Command Here

1st Lt. John J. McKinnon, a World War II veteran and assistant building superintendent for the city, has assumed command of the Torrance National Guard unit, it was announced here by Capt. Douglas J. "Dutch" Horlander.

Lieutenant McKinnon, who has been active in the command of Co. E., 132nd Engineer Bn., assumed command last week, relieving Capt. Horlander after six years. Horlander, also a World War II veteran, will enroll in the Army's four-year advanced engineer officers course at Fort MacArthur.

Horlander is assistant director of public works for Torrance.

160 Southland Explorer Scouts Probing Space and Aeronautics

The fascinating fields of space science and aeronautics will be explored by 160 Explorers from the Los Angeles Area Boy Scout Council during the next five months.

The young men, 14 to 18 years old, will participate in phase III of a space science program designed to introduce to them these fields of the future.

Seminars are being held each Saturday in four locations throughout the Council. Each consists of two 45-minute lecture-discussions, conducted by two different instructors,

each specialist in their own fields.

ON SATURDAY, Oct. 14, the first sessions were held. Explorers heard the experts delve into the history of space science, and the future road to the stars.

For the next 19 Saturdays, they will cover mathematics, rocket propulsion, physical constants, measurement theory, chemistry, thermal dynamics, aerodynamics, space environment and other exotic subjects beyond the ken of the uninitiated.

The project began with the American Rocket Society and the Los Angeles Area Boy Scout Council last spring.

BOTH GROUPS wanted to introduce Explorers to space science and aeronautics. To determine Explorer interest, an exposition was held in May, with speakers and exhibits.

Out of the 500 at the exposition, 200 then spent a week end at Vandenberg Air Force Base. There they met with scientists in seminars, and took field trips.

ONE HUNDRED sixty then indicated an interest in continuing the study, and delving further into space science.

Those Explorers are now attending the 20-week seminars. Seminars are held at South High School, Torrance; Pacific Indemnity Insurance Co., Los Angeles; El Rancho High School, Pico Rivera; and Loyola University, Inglewood.

TECHNICAL directors are James Cassidy, James Pierce, Yo Shibuya, and Robert Wood. Working with them are Scout

coordinators George Klukowski, Samuel Hathaway, John Wilts and Paul Marble.

Chairman of Phase III of the space science program is R. J. Gunkel, and Thomas J. Carter is coordinating the entire operation.

At the conclusion of the seminars, Explorers will have a graduation ceremony and receive graduation certificates.

And who knows, perhaps among the first colony of men on the moon will be former Explorers from the Los Angeles Area Council whose introduction to space science was through this program.

Bud King Graduated From Sales Workshop

Bud King of Vel's Ford Sales Co., Torrance, was one of 20 southern California Ford salesmen graduated from the Basic Truck Sales Workshop held in Los Angeles from Sept. 7 through Sept. 16.

Developed at the request of dealers and salesmen, the "Basic Truck Sales Workshop" is a cooperative dealer-company program established as a means of offering dealer personnel a specialized training in all facets of heavy truck selection.
